SUBJECT INDEX, VOLUME 21, 1956

Subject *Page*

Absorbability of natural and modified fats 621
Absorption and digestion of fat 34
Acid-forming bacteria in cucumber fermentations 27
Activators of spore germination 63
Actomycin in fish, changes in, during freezing and storage 505
Adding acid to canned mangoes to influence pH 163
Additional tables for a method of choosing judges for a sensory experiment 598
Amino acid composition of proteins of pulses (legumes) and rice 569
Amino acid composition of some Indian vegetables as determined by paper chromatography 477
Amino acids in fish, evaluation of, when processed by different methods 91
Amino acids in fish protein, microbiological determination of 87
Analysis of scores for bitterness of orange juice 1
Animal tissues, hydroxyproline content of 109
Apricot purees, microscopic structure of 329
Apricots, canned, effect of 2,4,5-trichlorophenoxyacetic acid spray on quality of 571

***Bacillus coagulans* in tomato juice, factors affecting growth of** 47
***Bacillus stearothermophilus*, effect of phosphate on apparent heat resistance of** 112
Bacteria, acid-forming, from cucumber fermentations in Michigan 27
Bacteria, determination of thermal death rate of 295
Bacteria in washings of green beans, direct microscopic count of 21
Bacteria, non-spore forming, canning experiments with 502
Bacterial spores, heat activation of 54
Bacteriological flora in frozen and chilled orange juice 583
Beans, snap, frozen, histological note on 601
Beef, freeze-dried, non-oxidative deterioration of 630
Beef, heat processing of 147, 156
Beef, heat processing of, sterilizing effects of high temperature processes 282
Beef proteins, hydrolysis of, by various enzymes 217

Beef quality, effects on, of three levels of nutrition and age of animal..... 415, 427, 436
Beef, round steaks, method for braising..... 75
Beef, two cuts of, effect on palatability, shear force values, and collagen content of two methods of cooking..... 312
Binomial designs, triangular and two-sample compared..... 235
Biological materials, drying methods for..... 528
Braising, method for beef round steaks..... 75
Browning reaction, role of dehydroascorbic and dehydroreductic acids in..... 519
B vitamin content of grapes, musts, wines..... 362

Cake, shortened, characteristics of, when baked in a slow- and in a fast-baking pan 302
Cakes, effectiveness of sorbic acid as fungistatic agent in protecting..... 133
Calcium and phosphorus content of some foreign and domestic canned sardines..... 242
Candy, starch jelly, strain retardation in..... 491
Candy, starch jelly, time of loading and strain retardation in..... 546
Canning, raw-pack, of low-acid vegetables at home..... 405
Carotene, structure of hydroxy-alpha-carotene in orange juice..... 689
Cashew kernels, deep fat frying of..... 306
Cathode ray irradiation of chicken meat to extend storage life..... 11
Cellulose, nature of, in cranberry pulp..... 207
Cheese, Cheddar, Swiss, cottage, vitamin B_{12} potency of..... 540
Cheese, surface-ripened, effect of irradiation on *Cl. botulinum* spores and toxin, Types A and B, in..... 226
Chemical and organoleptic changes in gamma irradiated meats..... 555
Chemistry of fading of cured meat pigment..... 122
Chicken meat, cathode ray irradiation of, for extending storage life..... 11
Clostridium, species of, associated with Zapatera spoilage of olives..... 481
Cloudiness in wines, copper complexes causing..... 441
Copper casse formation in white table wine..... 456
Cranberry pulp, nature of cellulose in..... 207
Cucumber fermentations in Michigan, acid-forming bacteria from..... 27
Cured meat pigment, fading of..... 122

Dark-ripe processing of olives, texture changes during..... 93
Deep-fat frying of cashew kernels..... 306
Dehydroascorbic acid, role of, in browning..... 519
Dehydroreductic and dehydroascorbic acids in the browning reaction, role of..... 519
Deterioration rate of freeze-dried meat, factors affecting..... 640
Digestion and absorption of fat..... 34
Direct microscopic enumeration of bacteria in washings of green beans..... 21
Drying methods for biological materials..... 528

Egg shell membrane, effect of, on bacteria..... 264
Eggs, shell, penetration and growth of *Salmonella* in..... 510
Enzymes of meat, respiratory, influence of various ions on beef succinoxidase..... 326

Fat, absorption and digestion of..... 34
Fats, natural and modified, absorbability of..... 621
Fish actomycin, changes in, during freezing and storage..... 505
Fish, freezing, packaging and frozen storage of..... 42
Food products, acidified, paper disk method for subculturing..... 372
Fortified whole milk, studies on..... 671
Frozen storage, freezing, and packaging of fish..... 42

Garlic, crushed, formation and decomposition of green pigment in..... 170
Gaseous emanation products of the onion..... 657
Gel deformation, continuous recording of..... 397
Green beans, direct microscopic enumeration of bacteria in washings of..... 21
Group size in simple taste sorting trials..... 534

Heat activation of bacterial spores 54
Heat processing of beef 147
Heat processing of beef, residual heating effects at high retort temperature 156
Heat processing of beef, thermal diffusivity for high-temperature process 147
Heat resistance, effect of phosphate on apparent resistance of *Bacillus stearothermophilus* 112
Hepatic disorders, effect on, of polyoxyethylene-8-monostearate 565
Histological note on a frozen snap bean problem 601
Hydrolysis of pectic materials and oligouronides by tomato polygalacturonase 448
Hydroxy-alpha-carotene from orange juice, structure of 689
Hydroxyproline content of animal tissues 109

Inhibitors of spore germination 70

Lipase B, proteinases of 270
Lipids, crude, of vegetables, effect of sunlight on 254
Lipoxidase, action of, in frozen raw peas 605

Mangoes, role of pH in canning of 163
Maple sirup, triose compounds in 589
Meat, beef, effect of moist and dry heat cooking on 209
Meat, freeze-dried, factors in deterioration rate of 630
Meat, freeze-dried, non-oxidative deterioration of 630
Meat, freeze-dried, oxidative deterioration of 195
Meat tenderization, factors affecting, when papain is the tenderizer 375
Meats, gamma irradiated, regeneration and stability of oxymyoglobin in 650
Meats, gamma irradiated, some chemical and organoleptic changes in 555
Mechanism of oxidative deterioration of freeze-dried meat 209
Microbiological determination of amino acids in fish protein 87
Milk, whole, vitamin and mineral fortified 671

Nitrogen and fat content of biological materials, effect of drying methods on 528
Non-oxidative deterioration of freeze-dried beef 630

Off-flavor in frozen raw peas, influence of vining on development of 666
Olives, texture changes during dark-ripe processing of 93
One-tailed and two-tailed tests in organoleptic comparisons 117
Onion, gaseous emanation products of 657
Orange juice, bitterness of, analysis of scores for 1
Orange juice, chilled, frozen, bacteriological flora in 583
Orange juice, structure of hydroxy-alpha-carotene from 689
Organic acids in peaches 184
Organoleptic comparisons, one-tailed and two-tailed tests 117
Oxidative deterioration in freeze-dried meat, mechanism of 195
Oxymyoglobin, regeneration and stability of, in some irradiated meats 650

Packaging, freezing, and frozen storage of fish 42
Paired comparison, simultaneous vs. successive presentation in 103
Peaches, organic acids in 184
Peas, raw, frozen, action of lipoxidase in 605
Peas, raw, frozen, influence of vining on development of off-flavor in 666
Pectin, organic acids in canned apricots, effect of 2,4,5-trichlorophenoxyacetic acid spray on 571
Peroxidase in vegetables, thermal destruction of, at high temperatures 322
Pigment, green, in crushed garlic, formation and decomposition of 170
Polyoxyethylene derivatives, oral toxicity and pathology of, in rats and hamsters 348
Polyoxyethylene-8-monostearate (Myrj 45), effect of, on patients convalescing from liver disorders 565
Polyoxyethylene preparations, effects of feeding of, to rats and hamsters 337

Polyoxyethylene (20) sorbitan monostearate, fate of, in rats 250
Proteinases of lipase B 270
Protein, fish, amino acids in 87, 91
Proteolytic enzymes, hydrolysis of beef proteins by 217
Purees, apricot, microscopic structure of 329

Quality of ice-stored shrimp, objective tests applicable to appraising 611

Radiation applied to meats and resulting changes 555
Radiation, effect of, on surface-ripened cheese inoculated with *Cl. botulinum* 226
Relationship of age with strain retardation in a starch gel 680
Rheology of starch in starch jelly candy 546
Rice and pulses (legumes), essential amino acids in 569

Salmonella in shell eggs 510
Sardines, canned, calcium and phosphorus contents of 242
Scoring of bitterness of orange juice 1
Sensory testing, additional tables for a method of choosing judges for 598
Shrimp, ice-stored, objective tests applicable to quality of 611
Sorbic acid as fungistatic agent for foods, effectiveness in protecting cakes 133
Sorbitan monostearate, polyoxyethelene (20) fate of, in rats 250
Spore germination, activators, inhibitors of 63, 70
Stability and regeneration of oxymyoglobin in some irradiated meats 650
Starch gel, strain retardation in 680
Storage life of irradiated chicken meat 11
Strain retardation in starch jelly candy 491, 546
Sunlight, effect on vegetable lipids 254

Taste sorting trials, group size in 534
Taste test, methodology, comparison of two-sample and triangular binomial designs 235
Taste test, paired comparison method for, simultaneous vs. successive presentation of samples 103
Taste testing, aspects of numerical scoring in 273
Tests, objective, applicable to appraising quality of ice-stored shrimp 611
Tomato juice, *Bacillus coagulans* in 47
2,4,5-Trichlorophenoxyacetic acid spray, effect on organic acids, pectin, and quality of canned apricots 571
Triose compounds in maple sirup 589

Vining of peas, influence of, on off-flavor development in frozen raw peas 666
Vitamin and mineral fortified whole milk 671
Vitamin B_{12} content of beef from animals fed at three levels of nutrition 436
Vitamin B_{12} potency of Cheddar, Swiss, cottage cheese 540
Vitamin retention in meat, beef, as affected by method of cooking 209

Wine, white table, copper casse formation in 384
Wines, B vitamin content of 362
